AURA CORE

ONE

STANDALONE AUDIO
MATRIX DSP

SHOWN: ONE 1208 / FRONT + REAR

STANDALONE PLATFORM

LOCAL

ANALOG AUDIO + CONTROL

Professional processing and matrix routing for installations that do not require Dante network audio.

TWO ANALOG I/O CONFIGURATIONS

ONE 88

8 analog inputs / 8 analog outputs

ONE 1208

12 analog inputs / 8 analog outputs

Every signal.
Under control.

Local audio processing, matrix routing and system control, brought together in one standalone platform.

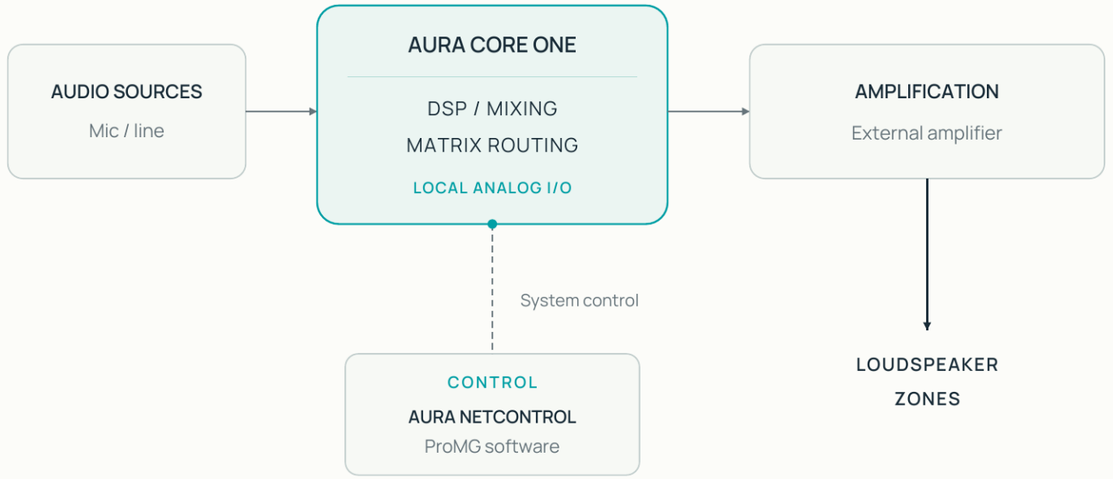

01 **Professional DSP**
Process local audio signals within the CORE platform.

02 **Audio matrix**
Mix and route analog sources across the installation.

03 **Analog I/O**
Choose 8 inputs / 8 outputs or 12 inputs / 8 outputs.

04 **System control**
ProMG software on desktop, iOS and Android.

THE LOCAL AUDIO ARCHITECTURE

WHEN YOUR PROJECT NEEDS DANTE

Move to CORE FLEX or CORE PRIME and add AURA NEXUS network I/O.
